Seminal Weakness.

Seminal emission is the consequence of self-abuse. This solitary vice, or deprayed sexual indulgence, is practiced by the youth of both sexes to an almost untimited extent, producing with unerling certainty the following train of merbid symptoms, unless combatted by scientific medical measures, viz. Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, notes like the rustling of leaves or rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, heetic finshes, furred tongue, fedid breath, counts, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating disease, which never fails of effecting a quick and radical cure.

Cured at Home.

Persons at a distance may be CURED AY HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the dis-case has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain di-rections for use.
